

Smoke Outlook for 8/10 - 8/11
Sierra-Inyo National Forest Lions Fire
 Issued at: 2018-08-10 08:18 PDT

Outlook for Sierra-Inyo National Forest

Daily AQI Forecast for Aug 10, 2018

Special Statement

An Air Quality Alert is in effect for Mono County. This air quality forecast reflects Particulate Matter – not Ozone.

Fire

Fire activity was low yesterday, the fire grew 68 acres yesterday, for a total of 8,779 acres with 70% containment. Crews remain focused on creating containment lines along the southwest flank. Unstable weather conditions continue through this weekend, with a chance of thunderstorms, which may lead to active fire behavior.

Smoke

Fire activity will be low to moderate today as scouting continues. Air quality will be Moderate to USG throughout in June Lake, Mammoth Lakes, and Crowley Lake. Devils Postpile can expect greater smoke impacts, due to pooling of smoke in the area, with USG to Unhealthy air quality. Due to the possibility of increased fire activity on the Donnell Fire, expect Unhealthy, with periods of Very Unhealthy air quality in Bridgeport and Lee Vining.

Other

Accumulated smoke impacts from several fires in California are contributing to poor air quality conditions throughout the area. This forecast is for the Lions Fire, for a regional forecast, go to: <https://wildlandfiresmoke.net/outlooks/SouthernSierra>

Station	Yesterday hourly	Thu 8/09	Forecast Comment for Today -- Fri, Aug 10	Fri 8/10	Sat 8/11
